PROFESSIONAL SUMMARY

Motivated Software Engineer with one year of hands-on experience in building responsive user interfaces and full-stack web applications at Axiata Digital Labs Pvt(Ltd). Skilled in React.js, Java, Python, C# ,Node.js ,Spring Boot, and modern web technologies, with a strong focus on usability, performance, and quality assurance. Passionate about developing scalable solutions and continuously improving technical and problem-solving skills.

WORK EXPERIENCE

Intern-Software Engineering

Axiata Digital Labs (ADL), Park Street, Colombo 02

April 2025 – March 2026

- Contributed to the NBC CXI system for CelcomDigi's New Billing & CRM program.
- Developed UI features using React.js & TypeScript and built REST APIs with Spring Boot.
- Worked within microservice architecture integrating Telco backend systems.
- Resolved production defects and improved code quality using Postman, Kibana, and SonarQube.

Full Stack Developer (Contract)

CH Software Solutions (Subsidiary of CH Global (Pvt) Ltd.)

May 2026 – July 2026

- Contributed to the development of the World's First Online Jewellery Customization and Instant Buying AI Platform.
- Designed and developed full-stack web application features using modern web technologies.
- Built and maintained both frontend and backend components of the platform.
- Assisted in implementing AI-powered features for jewellery customization and instant purchasing.
- Performed testing, debugging, and performance optimization to improve application quality and reliability.
- Collaborated with the development team to deliver project milestones within the contract period.

EDUCATION

Bachelor of Information and Communication Technology Honors – BICT (Hons)

University of Sri Jayewardenepura | Faculty of Technology

2022 – 2026 March

- Specialized in Software Technology

G.C.E. Advanced Level 2020

Mahinda Rajapakshe Collage, Matara

2018 -2020

- Science for Technology – A | Engineering Technology – B | Information and Communication Technology - B

PROJECT EXPERIENCE

NBC CXI Project | ADL Malaysia / Celcom Digi - Current

- Developed and enhanced customer-facing features for the CX Info (CXI) portal using React.js with TypeScript and Ant Design.
- Built and integrated RESTful APIs using Java Spring Boot (Spring MVC, Spring Data JPA, Spring Security).
- Worked within micro service architecture supporting prepaid, postpaid, and enterprise customer segments.
- Implemented and fixed security enhancements including Content Security Policies (CSP) and sensitive data handling improvements.
- Resolved production defects by analyzing logs via Kibana and validating API flows using Postman.
- Improved code quality by addressing SonarQube Quality Gate issues, reducing code smells and vulnerabilities.
- Participated in backend integrations with Telco BSS systems via REST APIs.
- Collaborated in Agile/Scrum environment with cross-functional teams across multiple NBC phases.
- Gained exposure to AWS EKS, Kubernetes deployments (Rolling & Blue-Green) and CI/CD processes via Jenkins.
- Contributed to version control workflows using Git & GitLab branching strategies.
- Automation testing Via Selenium.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C#, JavaScript
- **Frontend Technologies:** React, HTML, CSS
- **Backend Technologies:** Node.js, Spring Boot
- **Database:** MySQL
- **Software Development & Tools:** Agile Methodology, Jira, GitLab
- **Testing Tools:** Selenium

SOFT SKILLS

- Communication Skills | Teamwork | Problem Solving | Time Management | Adaptability | Analytical Thinking | Continuous Learning

INTERESTS

- Full stack Developing
- Front End Developing
- Web Application Developing
- Software Developing
- Back End Developing

CERTIFICATION COURSES

Front-end web development course

Python for Beginners course

Web Design for Beginners course

Software Testing Course

Practical Training Course in Tamil
